Re: Results of CTAB 2011 Triennial Review
RA11-55 Forest Resources Technology

Dear Mr. Crawford,

The Canadian Technology Accreditation Board (CTAB) has concluded the review of the above program, and your 2011 Triennial Review Team Report is enclosed. We are pleased to inform you that the program has been granted a three-year extension of national accreditation status to **June 30, 2014**.

We ask that you please review your Triennial Review Team Report carefully and take note of any areas that CTAB has indicated require attention, particularly any *Findings* or *Opportunities for Improvement*.

Your next Triennial Review submission will be due on March 1, 2014. To ensure that your records are kept up-to-date, CTAB requires that “marked” student work from the last two years be retained on file for each of the Program Strengths along with Technology Reports (*technologist level*). In addition, CTAB must be notified of any substantial changes made to the program during this period.

Thank you for your continuing commitment to academic excellence through the national accreditation program. If you have any questions, please do not hesitate to contact the CTAB Secretariat at (613) 238-8123 x224.

Sincerely,

Canadian Technology Accreditation Board

Isidore J. LeBlond, FCSC, CSP
Chief Executive Officer
